

Gemini Powell

Developer Advocate · Full-Stack Engineer · AI-Assisted Development
Baltimore, MD

tel:512-962-8673 - gemini@gemafawell.dev - <https://gemafawell.dev> · <https://linkedin.com/in/gemafawell>

PROFESSIONAL SUMMARY

Developer Advocate and Full-Stack Engineer who builds scalable, accessible, results-driven web applications and transforms technical complexity into clear, compelling developer and customer experiences. Fluent in modern JS frameworks, AI-assisted development workflows, and WCAG 2.1/2.2 compliance. Proven track record of measurable impact: 150% traffic lifts, 64% YoY sales growth, and accessibility wins across multiple production environments. Passionate about DevRel, technical content creation, community building, and bridging the gap between engineering teams and the developers they serve.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C#, SQL, Bash
Frameworks: Next.js, Svelte, React Native, MERN Stack (MongoDB, Express, React, Node)
AI & Dev Tools: GitHub Copilot, Cursor AI, Gemini Code Assist, Claude Code, Bolt.new
Cloud & Infra: AWS (Lambda, S3), Azure, SharePoint, .NET
CMS & E-comm: WordPress, Shopify, Sanity CMS, Squarespace
Accessibility: WCAG 2.1/2.2, Webhint, JAWS, IBM Accessibility Tool
SEO & Analytics: SEMrush, Yoast SEO, Google Analytics
Data & Viz: Tableau, ArcGIS, PostgreSQL, JSON APIs

EXPERIENCE

Founder & Full-Stack Developer · Tri-State WebGems, LLC

Aug 2022 – Present · Baltimore, MD / Remote

- Spearheaded full brand migration from Texas WebGems to Tri-State WebGems, expanding geographic reach by 120% and scaling the client base across Texas, Maryland, and beyond.
- Engineered React-based multi-page applications and WordPress e-commerce sites, driving 47% traffic growth and boosting client sales 64% YoY.
- Executed a full platform migration from Squarespace to Shopify, generating a 38% YoY sales lift.
- Launched targeted Squarespace landing pages that amplified a client's site traffic by nearly 150% in a single week.
- Redesigned two production websites leveraging Next.js, Cursor AI, and Gemini Code Assist; audited and achieved WCAG 2.1 compliance using Webhint, JAWS, and IBM Accessibility Checker.
- Authored technical content including development workflows and onboarding documentation, establishing a scalable foundation for client-facing developer resources.

Software Engineer (Volunteer) · 100Devs

Aug 2022 – Present · Remote

- Mentored junior developers across Agile bootcamp cohorts, facilitating code reviews and pair programming sessions to accelerate skill development.
- Contributed to real-world MERN stack projects and open-source bug fixes on GitHub, strengthening full-stack engineering fundamentals and developer community engagement.
- Developed foundational proficiency in Python and PostgreSQL through collaborative, peer-driven learning.

Developer Education Consultant · It's Destiny Recruiting

2025 – 2026 · Remote

- Coached internal engineering teams on AI-assisted development workflows and modern coding practices, accelerating tool adoption and delivering hands-on technical education to non-engineering stakeholders.
- Designed and implemented documentation frameworks to standardize engineer onboarding during client engagements, improving knowledge transfer and reducing time-to-productivity.

Audio Trainer (AI Annotation) · Mercor

Sep 2025 – Dec 2025 · Remote

- Evaluated hundreds of multimodal AI outputs daily across image, audio, and video modalities to measure model performance and alignment.
- Delivered actionable qualitative feedback to cross-functional AI teams, directly contributing to RLHF pipelines and preference-based model optimization.

SEO Web Developer · Digi Solutions

Oct 2024 – Jan 2025 · Hunt Valley, MD / Remote

- Optimized blog posts and landing pages via Yoast SEO and Google Analytics, generating a 23% MoM traffic increase.
- Strengthened WCAG 2.2 compliance, elevating average Google search rankings by 3 positions.
- Leveraged SEMrush keyword strategy and ChatGPT-4o content generation to expand audience reach and increase CTA opportunities by 11%.

Programmer IV / Web Developer · Texas Dept. of State Health Services

Apr 2024 – Aug 2024 · Austin, TX / Hybrid

- Launched the Texas Maternal Health dashboards — a first-of-its-kind statewide resource for expecting mothers and healthcare providers across Texas.
- Engineered an interactive carousel component in C#, CSS, JavaScript, and Bootstrap, boosting engagement time by 30% and increasing data downloads by 18%.
- Partnered with Tableau and ArcGIS geospatial mapping teams to publish health dashboards, expanding statewide access to critical public health data.

Sales Development Specialist · Inside Real Estate

Aug 2022 – May 2023 · Remote

- Consistently achieved ~70% of quota in a competitive proptech SaaS environment, demonstrating the consultative communication and discovery skills central to a Developer Advocate motion.
- Translated complex software value propositions into clear, compelling narratives for diverse buyer personas — directly paralleling the technical storytelling and audience empathy required of a Developer Advocate.
- Developed empathy for how technical buyers evaluate and adopt new tools through full-cycle discovery, surfacing pain points that directly inform product enablement and content strategy.

Sales Development Representative · Routable

Feb 2022 – Jun 2022 · Remote

- Generated pipeline at a developer-first fintech startup, gaining direct GTM exposure to payments API and automation products used by engineering teams.
- Built foundational fluency communicating technical developer tools to engineering audiences, informing a developer-first advocacy and enablement approach.

EDUCATION & CERTIFICATIONS

B.S. Psychology (in progress) · Morgan State University

2026 – 2029 · Baltimore, MD

CERTIFICATIONS

- Agile Explorer — IBM
- JavaScript Algorithms and Data Structures — freeCodeCamp
- Introduction to Back-End Development — Meta / Coursera
- Front-End Web Development Fundamentals — Udacity
- Strategic Self-Marketing and Personal Branding — SUNY Empire State College / Coursera

HONORS & AWARDS

- McNair Scholars Program, Mercy University, Summer 2014
- Mercy College Educational Grant, Mercy University, Spring 2013
- Lucie Lapovsky Scholarship, Mercy University, Fall 2012
